

The Shining New Leader

Text: Oliver Hangl

Musik: Stefan Foidl

I woke up in a fucked-up land
With a shining new leader
Who's a one person brand
Where the past was the future
Where the Burschis had their say
And John Otti comes to play

He said schwarz makes you geil
Be coldhearted with a smile
Be unchristian and unsocial
and dislike die armen Leut
Lets go business lets build networks
There's no need to learn was Gscheits

Hail the shining new leader
Hail to castles in the sand
Silent Kanzler immer wieder
In a Wald-Häuslbauer Land

I woke up in a fucked-up land
All that separates was good
Talk of concentrated camps
Were they misunderstood?
Make new enemies every day
And John Otti comes to play

They said smoking is fine
Praise the merits of Schüssel
Get up early, get in line
Go play paintball with Küssel
Please send Orban our cheers
Come lets order three beers
